The Indian's Panacea.

OR the cure of Rheumatism, Scrofula or King & Evil, Gout, Sciatica or Hip-Gout, Ine pient Cancers, Salt Rheum. Syphilitic and Mercurial diseases, particularly Ulcers and painful ajfections of the bones. Ulcerated Throat and Nostrils; Ukers of every description, Fever Sores, and Internal Abseesses, Fistillas, Piles, Scald Head, Scurvey, Biles, Chronic Sore Eyes, Ery. afterwards ulcerated and became large ghastly ul sipelas, Bloches, and every variety of Cutaneous cers in my neck. After trying several Physicians Affection, Chronic Catarris, Headach, proceeding to no advantage. I went to Philadelphia, and places from an aerid humor; Pain in the Stomach and myself under the care of Drs. Physic and Beach, Dyspepsia, proceeding from vitiation; Affections when, after repeated salivation to no effect, I was of the Liver, Chronic Inflamation of the Kidneys, and general debility, caused by a toroid action of thenty bottles of Sicain's Panacea and eight bottles the vessels of the skin. It is singularly efficacious in renovating those constitutions which have been broken down by injudicious treatment, or juvenile iregularities. In general terms, it is recommend d to all those diseases which arise from imurrities in the blood, vitiation of the humors, of whatever name or kind.

Some of the above complaints may require some trilling assistant applications, which the circumstances of the case will dictate, but for a general semedy or Purificator, to remove the cause, Tur. Is-DIAN'S PASACEA will generally be found sufficient since. I make this statement and wish it published

TO THE PUBLIC.

How true it is, that modern Physicians-in their ambition to exact in their profession, to explore the vast fields of science by the aid of chemistry, and seek out new renedial agents; in short to arrive at perfection in the practice by means of any alone, -entirely overlook and neglect, as beneath their notice, the rich and bounteous stores of medicine, which the Almighty has caused to spring out of the earthin every clime! And bow much more true it is, that while the American Physician looks to foriogn ountries for many of his most common and necessary articles perpetually changing as they are, the indictates of fashion or follyhe is surrounded his own country witth an endless practusiono

The congeniulity, efficiency and safett of vegetable remedies over mineral, may be estimated by contrasting the ancient practice with the modern, or, to bring it more immediately under our own obwhites. Who, in America, has not known or heard of repeated instances wherein some decrepid, unpretending female Indian, by means of her simple remedies alone, has effected the most rapid and astonishing cures, after the whole Materia Medica of the common practice, directed in the most skilful manner, has failed? And who has not been surpris ed at beholding the comparative case and facility with which the Indian frees himself of any disease, and at the almost total absence of chrome disease among them? Who has ever heard of an Indian with a constitution broken and ruined by illtreatment? And can a doubt exist, that this happy exemption of the savage from most of the ills which the fl-sh of civilized man is heir to, is chiefly owing to themore genial and safe remedies which he em ploys? This astonishing difference in success, is a fair exemplification of the infinite superiority of the simple and safe means of cure which God has created for the benefit of his children, over those which the pride and the art of mon have exvisers.

From a long residence among a portion of the aboriginal inhabitants of this country, and an intimate acquaintance with the methods of cures of prictor of the "THE INDIAN'S PANACEA," acquired same, on whom a copy of the said declaration with , a knowledge of some of their most powerful and favorable remedies. From these he selected such as were most efficacious and appropriate, and afte various experiments to test their principles and strength, he has combined them in the form here presented, as the most perfect and beneficial for the purpose for which it is recommended.

The proprietor offers this preparation to the pub lie, with the consciousness that he is placing within its reach, a remedy capable of relieving many of his afflicted fellow beings, who are suffering under the various chronic and obstinate complaints to which it is applicable. To such it will prove of incalculable value, as the means, and in many cases the only means of relieving their sufferings, and restoring them once more to health and happiness. This is not offered as a common remedy, that may perchance be equally good with many others now in use, but as one which is capable of saving life in many extreme cases, when all the usual remedies This it has done repeatedly; and this is the seputation it has obtained wherever it has been in-

It is only about three years since shis preparation was first presented to the public but in that as low as can be bought in this market, toshort space of time, some hundreds of persons | wil :might be found, who would solemnly declare that they believed that their lives were saved by it, and in most cases after they had tried many perhaps all the common remedies in vain. Wherever it is known it is rapidly coming into use, and this affords the most substantial and convincing proof off to merits.

The value of the Panacea, is most conspicuous in those long standing and obstinate syphilitic and scrofulous affections which have defied all other remedies, and particularly in those cases where mercury has been so lavishly used as to cause distressing pains in the bones, nodes, mercurial ulcers. derangement of the digestive organs, &c These it completely removes, and in all cases it entirely eradicates the disease and the effects of mercury, renovates the constitution, and leaves the patient sound and well. In Rhenmatisms and in ulcerated sore throat, its happy effects are not less apparent, giving almost immediate relief

Taken in proper doses, THE INDIAN . PANACEA operates as an alternative, and detergent, a dist phoretic, diaretic and laxative; an antipasmediaudinodyne, and in proper cases, as a stomachic A emmenagogue. Generally expressed, it increases all the secretions and excretions, gives tone to the stomach, and excites action in the glands in a par- | this market. ticular manner. From these principles its operation may be understood.

This medicine has been found highly useful in many ambiguous diseases not here specified, and it has been used with wonderful success as a Spring and Fail, pur fier by these who are subject to complaints of the chest, and whose constitutions require new vigor. Such persons will do well to use two or three bottles in small doses. Whenever a diet drink is considered necessary, the Panacea, taken in a small dose, will snewer all its purposes, in much less time, at less expense, and in a far more agreeable manner, than the common diet dink
